ALLIANCE TO
SAVE ENERGY
Creating an Energy-Efficient World

EDUCATIONAL PARTNER

**GREEN
 EDUCATION
 SERVICES**

Green Education Services, an EPA-accredited green jobs training provider, is the exclusive educational

partner for GOVgreen 2011. Green Education Services will work with the American Institute of Architects to have GOVgreen sessions certified for continuing education hours and with the U.S. Green Building Council to provide GBCI continuing education units (USGBC).

MEDIA PARTNERS

Make CEIL's Green Government Network
 the Cornerstone of Your 2011 Marketing Strategy

Our Advisory Council is composed of professionals with both government and private sector experience in environmental program development, management and procurement. The Council identifies topics and speakers most valuable to government professionals charged with developing and implementing sustainable programs.

INDIRA BALKISSOON

Vice President of Business Development, TechLaw, Inc.

Indira advises on business development strategy and opportunities and provides expert technical consulting on climate change, greenhouse gases and sustainability. Previously she was a Principal Consultant at Det Norske Veritas and also served as a regulator at the Environmental Protection Agency.

PETER C. FUSARO

Chairman and Founder, Global Change Associates

Global Change Associates focuses on the interplay and convergence of energy and environmental financial markets. Peter is also co-founder of the Energy Hedge Fund Center and author of *What Went Wrong at Enron*.

AMY GOLDMAN

Director, Global Environmental Management Initiative

GEMI is a non-profit organization of leading companies dedicated to developing insights and creating environmental sustainability solutions for businesses. Amy is also Executive Vice President and Chief Sustainability Officer of Navista, Inc.

MARIANNE HORINKO

President and Founder of The Horinko Group

Marianne's expertise is in watershed-based approaches to cleanup, corporate sustainability and public-private partnerships. She was previously Assistant Administrator and Acting Administrator for EPA's Office of Solid Waste.

AL HURT

Vice President, Sustainable Energy Innovations, Bioengineering Group

Al consults on building sustainable communities on an ecological foundation using an interdisciplinary approach. Al has more than 30 years of experience in strategic planning and environmental program management for Army, Navy and Air Force programs.

TOM JONES

President, Federal Business Navigators

Tom's firm specializes in government affairs, business development and public relations. Previously, Tom served as the Deputy Assistant Secretary of the Air Force for Reserve Affairs with primary oversight of the Air Force Reserve and the Air National Guard.

KARLA PERRI

Principal, The Spectrum Group

Karla co-manages the homeland security division consulting on energy, environment and bio-defense and providing strategic advice to corporate and government clients. Karla's previous experience includes DoD, EPA and the Senate Joint Economic Committee, and serving as an Assistant Deputy Undersecretary of Defense for Environmental Security.

HOWARD SNOW

Federal Business Strategies and Solutions; Former Deputy Assistant Secretary of the Navy

With more than 30 years of military, business and federal government experience, Lt. Col. Howard Snow, US Marine Corp, Ret., consults on the federal budget cycle and its impact on building business strategies.

DANIELLE MILLER WAGNER

Director of Programming, GOVgreen Conference and Expo

Danielle is an environmental professional focused on bringing sustainable practices to government agencies. An accredited LEED Professional (AP), Danielle has 16+ years of experience helping government agencies, real estate developers and non-profits develop new initiatives, manage programs, cultivate support and facilitate relationships.
